

2 August 2012

To whom it may concern

I have known Shijia Qian (Eric) for over 12 months and in that time, Eric has been involved in supporting GlobalNet develop both Android and iPhone applications.

I have been very impressed with Eric's work ethic and his determination to identify and resolve issues speedily and efficiently. He has been instrumental in supporting a commonwealth project run by GlobalNet for the emerging technologies sector.

Eric has demonstrated a capacity to work without supervision and to strict timeframes as well as being required to develop his own knowledge and skill in understanding the different code bases of the applications.

I highly recommend Eric to any prospective employer.

Sincerely

Chris Toselli

GlobalNet ICT Pty Ltd
